

Section 3

Find Loch Ness !

Loch Ness is the greatest body of freshwater in the British Isles. This largest of all our lakes is one of many in the British Isles.

1. See The British Isles and Scotland Maps on the next pages.

Your first task is to mark and name on your map the lochs and lakes in this list - they start off easy and become very difficult - see how many you can find - you will need an atlas map (physical map) of the British Isles to help you - mark each loch/lake in blue and write its name neatly alongside it - you might think about making a KEY...

Easy	Loch Ness (Scotland) Loch Lomond (Scotland) Lough Neagh (N.Ireland)
Tricky	Loch Lomond (Scotland) Lake Windermere (England) Loch Awe (Scotland)
Impossible	Loch Morar (Scotland) Rutland Water (England) Kielder Water (England)

2. Now add two more lochs or lakes of your own choice - from the atlas

3. Write a short note to an alien about how to find Loch Ness in the British Isles.

Dear

To find LOCH NESS you

4. Look at the map of the British Isles and find the information box below it. Your next task is to answer the following questions -

A) Which is Scotland's deepest loch ? _____ B) Which is Scotland's longest loch? _____

C. Which loch has the largest area ? _____ D) Which loch has the most water ? _____

E) Can you answer this question ? How is it that Loch Ness has more water than all the lakes in England and Wales put together and yet is NOT the longest, nor the deepest or even the biggest on the map? Write your answer on the next page.

Find Loch Ness !

The British Isles

Information Box on Lochs and Lakes

Loch	Maximum Depth in Metres	Length (km)	Area (km ²)	Volume Millions Cubic Metres
Lomond	190	36	71	2628
Awe	94	41	39	1230
Morar	310	19	27	2307
Ness	230	39	57	7542

Find Loch Ness !

Where is Loch Ness ?
